

Debbie Gravanda – Secretary

Debbie Gravanda has had a home on Lake Gaston since 2016. She works in software design management in government healthcare. Debbie has over 35 years in the software industry and prides herself in her ability to adjust in an environment that changes and grows quickly.

Debbie and her husband, Tony, both work from home and have retirement in their sights. They share a passion for God, their family and friends, and the lake. Every summer weekend starts and ends on the dock - the best ones shared with family and friends.

Debbie enjoys serving in the community. She likes to use her experience with technology to add efficiencies to jobs that have “always been done that way”!
